

Needless to say, we created a car that will become a legacy to Jayhawk Motorsports and possibly the fastest electric car that has competed in FSAE events in the world. And we would like to thank you for that. Enstroj for helping Jayhawk Motorsports produce this vehicle and we cannot express how much we appreciate that.

Here is the video of our endurance run in Detroit, Michigan

<http://www.youtube.com/watch?v=EhfN5ZyWpOY>

Here is a picture of the car and electric team. Can't see the motors in this picture but they are back there. Thanks guys!
